

SPESIFIKASI

NO	PRODUK	SPEKIFIKASI	MERK	TYPE	NEGARA ASAL
1	Vasculuminator	Features :	De Koningh	Vasculuminator	Netherlands
		- Tool to help take blood and achieve an optimal intravenous placement		Illuminates	
		- Infrared light source which allows transillumination			
		- Easy to use ; 1 on/off switch			
		- Large range of penetration which means deeper vessels also become visible			
		- The screen displays normal anatomy			
		- Immediate display which is not affected by patients moving			
		- This an effective and therefore money saving machine : the times that staff miss the mark will be reduced to practically zero			
		Technical Specification :			
		- Storage temperature range : -15 - + 40°C			
		- Storage relative humidity : 25-28%			
		- Operating temperature : + 18° to 30°C			
		- Max. Altitude : + 2000m above sealevel			
		- Length of swivel arm : 1.05 m			
		- Vertical camera adjustment : 0.5-01.65 m (distance from floor level to camera			
		- Focus distance : 0.1-0.8m			
		- LED Power : 80 mW Max			
		- Batteries : NP7-12 (Lead acid 12 V 7.2 Ah Size 95x151x65 cm			
		: terminal size 4.8 mm, maintenance free) 2 pcs			
		- Charger : DKMS bv charger type 330-00			
		- Charger input voltage : 100-240Vac 50-60Hz			
		- Charger output voltage : Fast Charge 14.7 V			
		Trickle charge 13.8 V			
		- Fuses : 2 x 6A 250Vac / 125Vdc fast blow on each battery			
		connection			
		- Power Supply : 8 hours on Battery			
		- Depth View : Till 25 mm			
		- Kind and Veins : Veins and Arteries			
		- IR Applicator : DKMS type 3186-0320
