1	ACEM Examination Lamp - Acem 1 F EVO	Features : Moveble with flexible arm direction Innovative illumination system based on LED Technology (Light Emitting Diodes) • Cold Light This cold light will not alter or change the target temperature on the surgical field . or on the surgeons head. • White Light - The new LED technology it produces an unparalleled quality of light. - The Light Colour Temperature (CCT) is 4.500 °K • Efficiency LED have a very linear yield and negligible performance decay for their life duration. • Long Life LEDs are semi conductors. Technical Specifications : - Max. light power : 60.000 lux @ 50 cm - Ligth adjustment : 0 - 60.000 Lux - Light field diameter (d50) : 9 cm @ 50 cm - Colour temperature : 4.500 °K - Colour rendering index (Ra) : 95 - LED average life : 50.000 hours abt - Voltage : 100 - 240 V - 50/60 Hz - Low DC voltage version : 12 VDC - Power consumption : 12 W - Light head and arm weight : 1 kg - Light head diameter : 12 Cm - Painting White : RAL 9002 - trolley weight : 3 kg	Acem	Starled 1F Evo	Italy
